

QUEST

Students will continue developing road safety awareness and sharing space with the public. Students will recognise when to move aside, wait, or stop to allow others to pass, helping them stay safe and aware in different environments.

Literacy

In Literacy, students will continue learning phonics sounds while reading topic-related texts such as The Very Hungry Caterpillar, Norman the Slug with the Silly Shell, and Mad About Minibeasts. They will develop comprehension and writing skills through engaging activities linked to these stories.

DT and Art

Students will learn the basics of FDM 3D printing using CAD program Tinkercad. We will complete a number of challenges to consolidate knowledge of shapes, motor skills using the mouse and spatial awareness.

Science

In science, students are going to explore the natural world. We are going to look how living things grow and change, their habitats, comparing babies and adults to understand life cycles.

Numeracy

In maths we are going to be exploring Capacity building on their understanding of full, empty, tall, thin, narrow, wide and shallow through practical learning. After half term we will be exploring Length and Height investigating the concepts of tall and short.

PSHE

This term, students will explore the concepts of public and private, learn about personal hygiene, and understand how to care for their bodies. They will also study puberty and how people grow and change from babies into adults.
